

What we do

The BLOOM cluster offers a residential and virtual incubation program for sustainable energy startups, as well as personalized coaching and financial assistance for innovative startups and entrepreneurs. Additionally, the cluster coordinates and provides business consulting services to its members in the areas of project funding, market research, innovation management, and product commercialization.

About Us!

BLOOM Cleantech Cluster is a sustainable energy and climate technology (cleantech) cluster established by Export Barbados, formally the Barbados Investment and Development Corporation (BIDC).

The cluster officially launched in September 2020 in partnership with the Ministry of International Business and Industry (MIBI) with technical assistance from the United Nations Industrial Development Organization (UNIDO).
